MASTER OF SCIENCE IN CYBERSECURITY

BE THE SOLUTION TO CYBER-ATTACKS

In 2017, cybersecurity spending grew 7% to \$86.4 billion¹, and by 2021, Cybersecurity Ventures reports there will be 3.5 million unfilled cybersecurity jobs. This quickly growing field can't find the skilled professionals it needs to meet its ever-evolving demands. A master's in cybersecurity prepares you to meet that need. You'll graduate from Saint Mary's University of Minnesota ready to stand out to employers, build on your technology expertise, and cultivate leadership skills that are crucial to excel in this field and prevent cyber attacks. You will be able to:

- Complete this program in only two years, 100% online
- Pay a total estimated cost of just \$23,940
- Prepare for CISSP + CISM certification
- Enter this program without a bachelor's in computer science or technology

PROGRAM HIGHLIGHTS

- **Expert Insights:** Work alongside practice-based faculty in a curriculum designed by real-world professionals to meet the needs of this field.
- **Leadership Skills:** Develop crucial skills in communication, negotiation and applied ethics — what you need to lead and promote your ideas to non-cyber leaders in a business environment.
- **Exam Readiness:** Prepare for CISSP and CISM certifications, and earn a respected master's degree that sets you apart in this growing field.
- **Save Time and Money:** Experience the value and convenience of a 100% online curriculum that costs only \$23,940 (only \$665 per credit).

MAKE AN IMPACT. MAKE A DIFFERENCE.

TAKE ON A TOP ROLE

Throughout your coursework, you'll develop a strategic balance between business needs and hands-on practical skills. This program will bolster your technical knowledge with leadership and communication skills that are crucial to excelling in cybersecurity. With a master's in cybersecurity, you'll be ready for top-paying jobs like these:

JOB TITLE	MEDIAN INCOME
Information Security Analyst	\$98,350 ¹
Information Security Specialist	\$75,347 ²
Information Security Officer	\$91,562 ³
Information Systems Manager	\$142,530 ⁴
Computer Network Architect	\$109,020 ⁵

EXPERTLY CRAFTED CURRICULUM

Experience a curriculum crafted by real-world professionals, including hiring managers, information security executives and government officials.

Saint Mary's consulted with these experts to develop a curriculum that meets the needs of today's hiring managers. As a graduate, you'll benefit from their guidance and stand out to professionals like them.

Core to the curriculum are skills in business communications, risk assessment, applied ethics and managerial basics, as well as technical knowledge in risk management, operational policy, and network security.

You'll graduate ready for a top-level position, empowered to protect important assets and be the solution to cyber attacks.

DEGREE REQUIREMENTS

Required Courses — 36 credits

Student must have a transcribed undergraduate or graduate computer networking course completed before taking CYBR 610.

CYBR600 Foundations of Cybersecurity	3 cr.
<i>(required first course)</i>	
CYBR605 Security Architecture	3 cr.
CYBR610 Network Security and Intrusion Detection	3 cr.
CYBR615 Cybersecurity Change Mgmt	3 cr.
CYBR620 Operational Security Policy	3 cr.
CYBR625 Risk Management	3 cr.
CYBR630 Communication for Cybersecurity Professionals	3 cr.
CYBR635 Data Privacy	3 cr.
CYBR640 Leadership and Ethics	3 cr.
CYBR645 Incident Response and Investigation	3 cr.
CYBR650 Ethical Hacking and Defense	3 cr.
CYBR690 Security Operations and Leadership	3 cr.
